

جدول محاضرات الفرقة السادسة المجموعه الرابعه (و , ي)
الفترة من (23/2/2020 الى 24/4/2020)

date	day	Topic	Name
23/2	Sunday	Metabolic response to trauma and SIRS	د/محمود العباسي
24/2	Monday	Shock , Blood transfusion and Surgical heamostasis	د/ سعد سليمان
25/2	Tuesday	Acid base balance and electrolyte disturbance, surgical nutrition	د/ عبد الله صلاح
26/2	Wednesday	Surgical infection	د/ محمد عبد الجليل
27/2	Thursday	Trauma and care of poly-trauma patient	د/ أميره الفقي
1/3	Sunday	Hernia	د/ ايمن البتانوني
2/3	Monday	Wound healing and tissue repair	د/ أحمد سامي
3/3	Tuesday	Oncogenesis,carcinogenesis and Organ transplant	د/ محمد حامد
4/3	Wednesday	Hernia	د/ ايمن البتانوني
5/3	Thursday	Gall bladder and biliary system	د/عادل زيدان
8/3	Sunday	Skin and subcutaneous lesions	د/محمود شاهين
9/3	Monday	Chronic ischemia	د/يحيى الخطيب
10/3	Tuesday	Neonatal intestinal obstruction	أ.د/مجدى لولح
11/3	Wednesday	Breast benign lesions	د/طارق راجح
12/3	Thursday	BREAST(malignancy)	د/طارق راجح
15/3	Sunday	Thyroid	د/محمد صبرى
16/3	Monday	Acute ischemia	د/ محمود سعيد
17/3	Tuesday	Pediatric tumours	د/مجدى لولح
18/3	Wednesday	Thyroid	د/محمد صبرى
19/3	Thursday	Parathyroid and adrenal	د/عبد الله صلاح
22/3	Sunday	Pancrease(non neoplastic)	أ.د/اشرف عبد الهادى
23/3	Monday	Venous(varicose vein)	د/محمود سعيد
24/3	Tuesday	Head and neck mass	د/محمد حامد

25/3	Wednesday	Pancrease(neoplastic)	أ.د/ اشرف عبد الهادى
26/3	Thursday	Esdophagus (motility disorders , Stomach (peptic ulcer and obesity)	د/عاصم فايد
29/4	Sunday	Esdophagus (neoplasm)	د/محمود حجاج
30/4	Monday	Venous (DVT and leg ulcers)	د/يحيى الخطيب
31/4	Tuesday	Congenital anaomalies of neonates (GIT)	د/مجدى لولح
1/4	Wednesday	Stomach (neoplasm)/ skin and subcutaneous lesions	د/محمود شاهين
2/4	Thursday	Anal diseases	د/ أميره الفقى
5/4	Sunday	Small bowel disorders and intestinal obstruction	د/احمد صبرى
6/4	Monday	Burn / Skin Ulcers and skin grafting	د/محمد النحاس
7/4	Tuesday	Colon and rectum(neoplasm/ rectal prolapse)	د/احمد صبرى
8/4	Wednesday	Liver neoplasm	د/ محمد عبد الجليل
9/4	Thursday	Maxilla-fascial injuries	د/حسام حسن
12/4	Sunday	Soft tissue sarcoma	أ.د/امحمود حجاج
13/4	Monday	Plastic(cleft lip,palatehamangioma)	د/حسام حسن
14/4	Tuesday	Lymphadenopathy and lymphoma/ spleen	أ./أحمد سامي
15/4	Wednesday	Abdominal Wall, Omentum, Mesentery, and Retroperitoneum	د/ محمود العباسي
16/4	Thursday		
19/4	Sunday		
20/4	Monday		
21/4	Tuesday		
22/4	Wednesday		
23/4	Thursday		

جدول clinical round الفرقة السادسة المجموعه الرابعه (و ي)
الفترة من (23/2/2020 الى 24/4/2020)

25/3 الى 23/2 الفترة من)					
date	day	Lecture	Clinical	Tetorial	Workshop
23/2	Sunday 1	Metabolic response to trauma and SIRS	Meeting	Meeting	Meeting
24/2	Monday	Shock , Blood transfusion and Surgical heamostasis	History taking Plastic	How to take consent	Preoperative preparation
25/2	Tuesday	Acid base balance and electrolyte disturbance, surgical nutrition	General examination	A case of TRA in ER	How to scrup and protect yourself
26/2	Wednesday	Surgical infection	General examination	Introduction of X ray	
27/2	Thursday	Trauma and care of poly-trauma patient	Abdominal examination	A case of hand infection	Types of surgical incisions
1/3	Sunday 2	Hernia	Inguinal hernia Case of chronic ischemia	A case of inguinoscrotal swelling	Types of surgical drains and uses
2/3	Monday	Wound healing and tissue repair	A case of ulcer Plastic	A case of tongue ulcer	Intra operative complication
3/3	Tuesday	Oncogenesis,carci-nogenesis and Organ transplant	A case of hydrocele	A case of swelling	Postoperative care
4/3	Wednesday	Hernia	Swelling Chronic ischemia	Operations of varicosveins and hernioplasty	
5/3	Thursday	Gall bladder and biliary system	Abdominal mass	A case of jaundice	Wound dressing
8/3	Sunday 3	Skin and subcutaneous	Breast examination	A case of neonatal intestinal	Instruments

		lesions	A case of chronic ischemia	obstruction	
9/3	Monday	Chronic ischemia	Generalized lymphadenopathy Plastic	A case of acute ischemia	Suture types
10/3	Tuesday	Neonatal intestinal obstruction	Breast examination	A case of breast mass how to approach	Suture types
11/3	Wednesday	Breast benign lesions	Splenomegaly Venous ulcer	Mammogram and pediatric imaging	
12/3	Thursday	BREAST(malignancy)	Hernia	A case of hypersplenism	Care of cholostomy
15/3	Sunday 4	Thyroid	Thyroid case Varicose veins	A case of hypospedius	Emergency
16/3	Monday	Acute ischemia	Thyrotoxic goiter plastic	A case of thyroid nodule	Anesthesia
17/3	Tuesday	Pediatric tumours	Swelling	A case of appendicitis	Emergency
18/3	Wednesday	Thyroid	Parotid swelling Varicose veins	Mastectomy and thyroidectomy	
19/3	Thursday	Parathyroid and adrenal	Generalized lymphadenopathy	A case of pancreatitis	Emergency
22/3	Sunday 5	Pancrease(non neoplastic)	Inguinal hernia Case of chronic ischemia	A case of pancreatitis	Instruments
23/3	Monday	Venous(varicose vein)	A case of ulcer Plastic	How to take consent	Preoperative preparation
24/3	Tuesday	Head and neck mass	A case of hydrocele	A case of TRA in ER	How to scrup and protect yourself
25/3	Wednesday	Pancrease(neoplastic)	Swelling Chronic ischemia	Operative appendectomy and cholecystectomy	

26/3	Thursday	Esophagus (motility disorders , Stomach (peptic ulcer and obesity)	Abdominal mass	A case of hand infection	Types of surgical incisions
29/3	Sunday 6	Esophagus (neoplasm)	Breast examination A case of chronic ischemia	A case of inguinoscrotal swelling	Types of surgical drains and uses
30/4	Monday	Venous (DVT and leg ulcers)	Generalized lymphadenopathy Plastic	A case of tongue ulcer	Intra operative complication
31/4	Tuesday	Congenital anomalies of neonates (GIT)	Breast examination	A case of swelling	Postoperative care
1/4	Wednesday	Stomach (neoplasm)/ skin and subcutaneous lesions	Splenomegaly Venous ulcer	X ray abdomen plain and with contrast	
2/4	Thursday	Anal diseases	Hernia	A case of jaundice	Wound dressing
5/4	Sunday 7	Small bowel disorders and intestinal obstruction	Thyroid case Varicose veins	A case of neonatal intestinal obstruction	Instruments
6/4	Monday	Burn / Skin Ulcers and skin grafting	Thyrotoxic goiter plastic	A case of acute ischemia	Suture types
7/4	Tuesday	Colon and rectum(neoplasm/ rectal prolapse)	Swelling	A case of breast mass how to approach	Suture types
8/4	Wednesday	Liver neoplasm	Parotid swelling Varicose veins	Splenoectomy and hemioridectomy	
9/4	Thursday	Maxilla-fascial injuries	Generalized lymphadenopathy	A case of hypersplenism	Care of cholestomy
12/4	Sunday 8	Soft tissue sarcoma		A case of hypospedius	Emergency

13/4	Monday	Plastic(cleft lip,palatehamangioma)		A case of appendicitis	Anesthesia
14/4	Tuesday	Lymphadenopathy and lymphoma/spleen		A case of pancreatitis	Emergency
15/4	Wednesday	Abdominal Wall, Omentum, Mesentery, and Retroperitoneum		Vascular imaging and pathology	
16/4	Thursday			A case of thyroid nodule	Emergency
19/4	Sunday 9				
20/4	Monday				
21/4	Tuesday				
22/4	Wednesday				
23/4	Thursday				

Week	Operative topics
1	Introduction of x ray abdomen how to comment
2	
3	X ray abdomen plain
4	Operative thyroidectomy and splenectomy
5	with contrast
6	Operative mastectomy and hemoriodectomy
7	Pediatric imaging and vascular imaging
8	Operations of varicosveins and hernioplasty
9	Pathology and instruments

Workshop

Preoperative preparation
How to scrub and protect yourself
Types of surgical incisions
Types of surgical drains and uses
Intra operative complication
Postoperative care
Wound dressing
Instruments
Suture types
Suture types
Care of cholestomy
BLS
Anesthesia
BLS

1-How to scrub (given)
(given)
3-Wound dressing (given)
5-Post-operative monitoring (given)
given)
7-How to deal with sharp objects (not given)
9-Post-operative pain (not given)

2-Sutures and how to take a stitch
4-IV line insertion (not given)
6-Pre-operative preparation (
8-Care of colostomy (given)

Tutorial

How to take consent

A case of TRA in ER

A case of hand infection

A case of inguinoscrotal swelling

A case of tongue ulcer

A case of swelling

A case of jaundice

A case of neonatal intestinal obstruction

A case of acute ischemia

A case of breast mass how to approach

A case of hypersplenism

A case of hypospadias

A case of thyroid nodule

A case of appendicitis

A case of pancreatitis Emergency

A case of pancreatitis Instruments

1- Bleeding per rectum (given)

3-Obesity (not given)

5-Obstructive jaundice (not given)

7-Neonatal intestinal obstruction (not given)

9-Breast lump (not given)

11-Robotic surgery (not given)

given)

13-GIT endoscopy (given)

15-Gene therapy (not given)

17-Total parenteral nutrition (not given)

2-Inguino-scrotal swelling (given)

4-Leg ulcer (not given)

6-Thyroid swelling (given)

8-Mastalgia (given)

10-Laser in surgery (not given)

2-Radio-frequency in surgery (not

14-Carcinogenesis (not given)

16-Ethics in surgery (not given)

18-Organ transplant (not given)
